

## **Characteristics of Chinese GMP**

### Comparison of Chinese GMP and ICH Q7

#### Abstract

In this paper, a brief introduction of Chinese GMP with respect to legislation, guidelines, and the GMP certification system is given. This is followed by a comprehensive comparison of Chinese GMP with international GMP – ICH Q7, covering the main aspects of GMP starting point, product quality management, personnel, buildings and facilities, materials management, production management, validation as well as documentation. The characteristics of Chinese GMP with respect to methods, procedures, operations, and documentation for the manufacture of pharmaceutical products are especially emphasized.
